

July Newsletter

Dates

Wednesday 10th July - Zoolab visit pm

Tuesday 16th July - Sports day am / Graduation Day for leavers pm

Friday 19th July - Last day of term. Finish at 12.00pm

Reminder- Sports Day and Summer Picnic

Please remember that Sports Day and Summer Picnic, will be held on Tuesday 16th July.

Am - Sports day - parents arrive at 10:30am (Children whose day it is, arrive at normal time) - this will be followed by a family picnic.

Picnic - at 12pm - a family picnic where families bring their own food for you and your children, and children who are not school leavers are free to go home after.

PM - graduation for leavers only, at 1:30pm. We would kindly ask, if at all possible, that all children who are not leaving us in the summer, are taken home after sports day / picnic.

Library books

Please can we ask that all library books that you have borrowed, are brought back by 5th July and we will reissue them again next year.

Sunny weather reminders

- No open-toed sandals or crocs
- Suncream your child before coming to preschool
 - Bring a hat
- Extra clothes and shoes (water play is wet!)

Gardening day

Thank you to all the parents who joined us for the gardening day. We got lots done and the garden is looking beautiful. If you have any spare plants or soil that you would like to donate then it would still be most welcome.

Good Luck

It is with great sadness that we say goodbye to all of our school leavers. We wish them all the very best as they venture into the next stage, of school life. You will be very much missed by all here, but we know you will be super stars, and we look forward to hopefully seeing you in your new school uniforms and hearing about all of your successes.

Thank you

We would like to thank you for all of your support over this last year; we wouldn't be here without you! Have a very healthy, restful and fun filled summer holiday, ready for September.

Interesting thread

And finally, an interesting video was going around Facebook on the impact that a parents phone use has on their developing child. A speech and language specialist responded with this...

" As a speech therapist I feel like phones and iPads are a big cause of an increase in language delays. It starts with infants getting less

eye contact with their parents. Then less language stimulation, less play (which is how children learn), less book reading, less social interaction. I believe phones and iPads should be viewed like alcohol. These things are addictive. You wouldn't give alcohol to your toddler or let them see you drink it all day."

Some food for thought.

The time that you spend with your children is precious, make sure you are fully present and they know that all of your attention is on them.

We hope you all have a lovely and hopefully warm and sunny summer.

Best wishes

Shamira and Claire
